

Spe-ed FLASH

Spe-ed FLASH

Disposable Columns for Flash Chromatography

*Spe-ed*TM Flash columns have been designed and manufactured to meet the critical needs of researchers who are using automated organic purification instruments.

***Buy your Flash columns from
a company that actually
manufactures the packings***

Get consistent results because there's uniformity from batch to batch.

Uniform and fast flow for excellent separations, because there's narrow particle size distribution

No samples are lost due to pressure problems, because there's 100% inspection.

Every cartridge is tested for leaks at 100 psi

A wide range of column configurations to fit most popular instruments - even your custom configuration

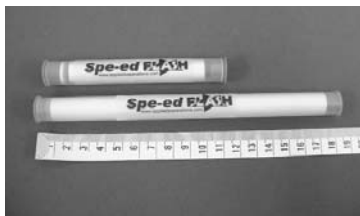

Fast Delivery • Economical Pricing

Large Selection of Packings

- Silica • Octadecyl • Octyl • Phenyl • Cyclohexyl • Butyl • Ethyl •
- Methyl • Cyanopropyl • Cyanopropyl (unendcapped) • Florisil •
- Alumina (neutral, acidic or basic) • Diol • Carboxylic Acid •
- Benzenesulfonic Acid • Aminopropyl • Primary/Secondary Amine •
- Diethylamino • Quaternary Amino • *also* a wide range of polymeric packings, e.g. functionalized styrene divinyl benzene •

Spe-ed FLASH 12

Silica Gel 32-63µm, 60Å, 500-550 m²/g

<u>Catalog #</u>	<u>Product</u>	<u>Biotage™ Equivalent</u>	<u>Qty/box</u>
#12347	Spe-ed Flash SiD12S	FKO-1107-15026	20

Empty Spe-ed FLASH

Applied Separations' flash columns can be purchased either empty, or with frits. Separate frits are also available in order to meet individual extraction needs. These accessories, used separately or in combination, result in customized extraction columns for use in flash chromatography procedures.

D12 Series

	Qty.	D12S Catalog #	D12M Catalog #
Cartridge assembly including 2 frits	50	12060	12063
Frit 20 μ PE	100	12062	12062
Cap	100	12061	12061

D40 Series

	Qty.	D40S Catalog #	Price	D40M Catalog #	Price	D40L Catalog #	Price	D40XL Catalog #	Price
Cartridge assembly including bottom frit and luer adaptor	50	12066		12070		12071		12072
